**RE: CASTLE CONSTRUCTION
RENO COLETTI**

To Whom It May Concern:

Castle Construction and Reno Coletti were the contractors for a major addition and remodel on our Oral and Maxillofacial Surgery office last year. Under Reno's direction, Castle Construction did an excellent job with our remodel and worked around our busy schedule without ever having to close the office to allow us to continue with patient care. They stayed under budget and on schedule and in fact finished before the promised completion date. It is without reservation that all three doctors involved in our practice would highly recommend Reno Coletti and Castle Construction. Please contact me if I can answer any questions.

Sincerely,

Reed E. Van Wagenen, D.D.S.

Diplomate, American Board of Oral and Maxillofacial Surgery
